

Help Stay Safe Without Slowing Down

Smart touchless solution for temperature, face mask checks and screening questions.

Bring peace of mind to staff and visitors with contactless screening.

Engineered and designed to deliver a fast, safe and reliable temperature screening and check-in experience that doesn't involve any touchpoints or another person.

Accurate and fast temperature check

Combines power infrared and environmental sensors to perform a non-invasive and highly accurate temperature measure in 0.2 seconds.

Zero touchpoint, away from staff

Completely touchless, starting automatically using LIDAR technology and AI. Our mobile web app can be used for self check-ins and answering screening questions.

Staff privacy and data security

Doesn't rely on facial recognition to connect employee records, with a built-in keycard and access control compatible reader.

Designed for your staff, contractors, customers and more.

No matter what the scenario requires, LivMote™ has adaptable modes to provide a streamlined screening experience that doesn't feel burdensome.

How LivMote Works

Before entering the building, employees and visitors take a customized web-based questionnaire on a personal smartphone. If approved, they are directed to a LivMote device for touchless face mask detection and temperature reading.
