

Purchasing Power

Cooperative contracts
for participating agencies

We have a lot in common

We serve with purpose.

We are a government agency powered by state statute to serve participating agencies. Our employees are passionate about service and committed to helping our clients succeed so they can fulfill their own public service missions. We invest in regional programs and national partnerships benefiting our clients.

We are independent.

As a self-sustaining government agency, we, with oversight from our board of publicly elected officials, are able to develop timely, market-driven solutions. Not beholden to shareholders, we move decisively to serve fellow public agencies.

We are trailblazers.

We are a market leader with a track record of innovation and growth across all services. Our strong buying power and solid reputation help us bring world-class brands, and well-regarded programs to our clients.

We pay attention to the fine print.

We have standardized our processes and technology around best practices and value the same high procurement standards you have for your team.

We value our relationship with you.

We want our relationship with you to last. We are committed to understanding your needs and providing the comprehensive selection of solutions that will make you successful today and long into the future.

Welcome to Sourcewell

We understand the value of cooperative purchasing, as well as the importance of providing the best solutions for our clients.

As a service cooperative,* Sourcewell holds competitively solicited cooperative contracts ready for use by government, education, and nonprofit entities. Cooperative purchasing connects buyers and sellers for efficiency and savings.

*Sourcewell is a service cooperative created to provide programs and services to participating agencies in the government, education, and nonprofit sectors. Its statutory purpose is to assist public agencies in meeting specific needs which are more efficiently delivered cooperatively than by an entity individually. Minn. Stat. § 123A.21, subd. 2.

Awarded contracts

Competitively solicited contracts offer efficiency, transparency, and opportunity for local purchasing.
