To the extent the amount of loss is uncertain, the reserve shall be set conservatively. As the degree of uncertainty is changed by new events or information, the amount of the reserve shall be modified accordingly. Accounting for Reserves shall be as required by the financial statement forms and instructions under Minnesota Rules, Part 2785.1600, subpart 2.

9.1.5 Fidelity Bond. All individuals who handle, or who have authority to gain access to, Pool funds, including Trustees, shall be covered by a fidelity bond or policy of insurance

coverage approved by the Commissioner covering losses from dishonesty, robbery, forgery or alteration, misplacement, or mysterious or unexplainable disappearance. The amount of coverage for each occurrence shall be \$300,000 or more. The Pool shall purchase a fidelity bond or policy of insurance coverage approved by the Commissioner covering the required service providers and individuals or submit to the Commissioner separate proof of coverage for all required service providers and individuals not covered under the Pool's bond or applicable insurance coverage.

9.1.6 Separate Accounts. The Board of Trustees may, but shall not be required to, establish separate accounts for the payment of claims or certain types of expenses. The accounts shall be used only by the Service Company, its authorized subcontractors, or the Financial Administrator, as appropriate to the account's purpose. The amount in these separate accounts shall not exceed an amount reasonably sufficient to pay the claims or expenses for which the account is established. All monetary and investment assets not in such accounts shall be under the control of the Pool's Financial Administrator.

9.1.7 Maintenance of Sound Financial Condition. The Board of Trustees shall regularly monitor the Pool's revenues, expenses, and loss development, and evaluate its current and expected financial condition.

(a) If necessary, the Board shall attempt, in good faith, to maintain or restore the Pool's sound financial condition, using any means at its disposal, including, but not limited to, adjusting premium rates, underwriting standards, dividend rates, expulsion standards, and other powers granted by applicable Minnesota law or rules and this Agreement and Bylaws.

(b) If the Board's actions are inadequate to maintain or restore the Pool's financial condition, the Commissioner shall, as appropriate, order an increase in premium rates, revoke the Pool's self-insurance authority pursuant to Section 12.3.2 herein, or order that an assessment be levied against Participating Members under Section 9.5 herein.

9.2 Reporting.

9.2.1 Financial Statements. The Board of Trustees shall prepare annual financial statements containing a statement of net position; statement of revenues, expenses, and changes in net position; and a statement of cash flows. Such statements:

(a) Shall be filed with the Commissioner no later than 60 days after the end of the Pool's Fund Year; and

(b) Shall be audited by an independent certified public accountant, who shall submit a report to the Commissioner within 180 days of the end of the Pool's Fund Year.

(c) Every second annual financial statement shall be accompanied by a statement from a qualified actuary concerning the statement of net position items that are based on actuarial assumptions and methods. The form of the actuary's statement and the scope of their review shall comply with the Commissioner's instructions.

- (d) The Pool shall file quarterly reports with the Commissioner, in the event the Commissioner requires quarterly reporting to ensure the Pool's financial integrity.

9.2.2 Annual Status Report. No later than 60 days after the end of the Pool's Fund Year, the Board of Trustees shall file with the Commissioner a statement describing any changes that have occurred in the information filed with its initial application for authority to self-insure or its most recent status report.

9.3 Joint and Several Liability.

9.3.1 Pool Liabilities and Expenses. Pursuant to Minnesota Rules, Part 2785.1400, subpart 1(A):

- (a) Each current Participating Member shall be jointly and severally liable for all Pool liabilities and expenses; and
- (b) Each past Member shall continue to be jointly and severally liable for the Pool's liabilities and expenses for three (3) complete Fund Years after leaving the Pool. Each past Member shall continue to be jointly and severally liable for the Pool's liabilities and expenses for a period of three (3) complete Fund Years after leaving the Pool. After the period of continuing liability, past Members are no longer jointly and severally liable for the Pool's liabilities and expenses, unless runoff pool liability is applicable.

9.3.2 Runoff Pool Liabilities and Expenses. All current Members participating in the Pool at the time self-insurance authority ends continue to be jointly and severally liable for the Pool's liabilities and expenses until the Pool is dissolved. All past Members that are jointly and severally liable for the Pool's liabilities and expenses at the time its self-insurance authority ends continue to be jointly and severally liable until the Pool is dissolved.

9.4 Assessment. The Board of Trustees may levy an assessment against current and past Participating Members under the following circumstances:

9.4.1 Assessment to Correct a Deficit. If the Pool's total liabilities exceed its total assets, the Board shall restore a positive Surplus within ninety (90) days by assessing all jointly and severally liable current and past Participating Members according to the following formula:

All jointly and severally liable Participating Members and past Participating Members may be assessed proportionately to their share of the total premiums paid and owed during the assessment base period. The assessment base period at the time of the Pool's self-insurance authority ending, shall remain the basis of assessments under this item until final Pool dissolution. The assessment base period includes all completed quarters of the current fund year and includes the most recent three complete fund years.

9.4.2 Assessment to Increase Surplus. The Board of Trustees may also forestall a deficit or to otherwise improve the Pool's financial strength by assessing all jointly and severally liable

current Participating Members. The assessment may be calculated using any reasonable procedure, consistent with these Bylaws

9.5 Cash Flow and Stop-Loss Insurance.

9.5.1 Cash Flow Difficulties. The Board of Trustees shall protect the Pool from cash flow difficulties using methods that include, but are not limited to, the following:

- (a) Establishing and maintaining a Surplus consisting of funds contributed by Participating Members and the Pool's net position; or
- (b) Obtaining language in the Pool's stop-loss insurance policy requiring the insurer to advance funds to the Pool if the policy limits have been or are likely to be exceeded. The funds may be considered an advance against the insurer's potential liability for the policy period.

9.5.2 Stop Loss Insurance. The Pool may purchase excess or stop-loss insurance for indemnification of a portion of its losses. If stop loss insurance is required pursuant to Minnesota law, any such stop-loss insurance shall comply with Minnesota Rules, Part 2785.1300 and Minnesota Statutes, § 471.617. If the Pool determines that an excess or stop-loss insurance policy will be terminated or modified causing a violation of applicable law or otherwise compromising the Pool's financial integrity, the Pool shall notify the Commissioner prior to the termination or modification taking effect and shall indicate what corrective action will be taken.

9.5.3 Stop-Loss Requirements. The Board of Trustees shall comply with the following with respect to any stop-loss insurance it purchases:

- (a) If the Board elects to terminate or modify a stop-loss policy in a manner that would violate applicable law or otherwise compromise the Pool's financial integrity, the Board shall notify the Commissioner prior to the effective date of the termination or modification and indicate what corrective action will be taken.
- (b) No liability transferred to a stop-loss insurer may, directly or indirectly, be returned to the Pool or a Participating Member of the Pool.

9.6 Dividends. The Board of Trustees may, but shall not be required to, declare and pay dividends or distributions from its Surplus subject to the following requirements:

9.6.1 Limitations. The Board shall not declare a dividend or distribution from Surplus if doing so will cause the Surplus to be negative or if the Pool has a stop-loss advancement liability.

9.6.2 Allocation. Any dividend declared shall be allocated in proportion to each eligible Participating Member's share of the total Premiums paid during the period used to calculate the dividend.

9.6.3 Eligibility and Member Responsibilities. Only Members participating in the Pool at the time a dividend or distribution is declared shall be eligible to receive the dividend or distribution. If a dividend be distributed, each Participating Member shall be responsible

for determining how the dividend or distribution shall be used in accordance with applicable Minnesota law.

ARTICLE X. LIABILITY AND INSURANCE

10.2.1 Limitations. No Trustees shall be held liable for:

- (a) Mistakes in judgment or other actions made, taken, or omitted by the Trustee in good faith;

10.2.3 Duties. The Trustees shall discharge their duties solely in the interest of the Pool and:

- (a) For the exclusive purpose of providing benefits to Covered Persons and defraying the reasonable expense of administering the Pool and the Plan(s);
- (b) With the care, skill, prudence, and diligence under the then prevailing circumstances that a prudent person in a like capacity and familiar with such matters would use in conducting an enterprise of a like character and aims; and
- (c) In accordance with the documents and instruments governing the Pool and Plan(s) insofar as such documents and instruments are consistent with the law.

ARTICLE XI. DISPUTE RESOLUTION

11.1 Informal Dispute Resolution. The Board of Trustees shall seek to resolve any dispute between the Pool and any Participating Member, or a dispute amongst Members, through informal discussion. Such efforts shall be facilitated by the Chairperson, or, if the Chairperson has a conflict of interest due to the nature of the dispute, by an alternate Officer or Trustee.

- 11.2 Formal Dispute Resolution. If a dispute cannot be resolved through informal efforts, the Board may refer the dispute to formal mediation facilitated by a mediator mutually acceptable to the parties to the dispute. In the event the dispute cannot be resolved through mediation, the parties to the dispute may pursue other reasonable procedures for resolution, including formal litigation.

ARTICLE XII. DURATION AND DISSOLUTION

- 12.1 Duration. Pursuant to Minnesota Statutes, § 471.59, subdivision 4, but subject to the provisions herein regarding Member withdrawal, this Agreement shall be ongoing.

- 12.2 Merger. To the extent not prohibited by applicable law, the Board of Trustees may apply to merge with any other plan or pool established under Minnesota law. The Board of Trustees shall solicit the advice and counsel of the Labor Management Committee in considering any such merger.

- 12.3 Ending Self-Insurance Authority.

- 12.3.1 Voluntary Termination of Authority to Self-Insure. The Board of Trustees may elect to end the Pool's self-insurance authority and cease to provide Coverage, provided such decision is made at least 45 days before the end of the current Fund Year. The Board shall provide notice of its decision to the Commissioner within fourteen (14) days.

- 12.3.2 Revocation of Authority to Self-Insure. The Commissioner shall, by order, revoke the Pool's authority to self-insure upon no less than ten (10) days' written notice if any of the following events occur, and the Commissioner judges the event(s) to be material:

- (a) Failure of the Pool to comply with applicable Minnesota statutes or rules;
- (b) Failure of the Pool to comply with any lawful order of the Commissioner;
- (c) Commission by the Pool of an unfair or deceptive practice as defined in Minnesota Statutes, §§ 72A.17 to 72A.32, or in related rules;
- (d) Deterioration of the Pool's financial integrity to the extent that its ability to meet obligations promptly and in full is or will be significantly impaired.

- 12.3.3 Runoff Period. The Pool shall continue to exist as a Runoff Pool after its authority to self-insure has ended for purposes of paying claims, preparing reports, and administering transactions associated with the period in which the Pool provided Coverage. The Runoff Pool shall continue to comply with applicable Minnesota statutes and rules. No Members shall be permitted to join, leave, or be expelled from the Pool during the runoff period.

- 12.4 Dissolution.

- 12.4.1 Authorization to Dissolve. The Board of Directors shall not dissolve the Pool or Runoff Pool without requesting authorization from the Commissioner. The Commissioner shall grant the request within 60 days of receipt if either of the following conditions are met:

- (a) The Pool demonstrates that it has no outstanding liabilities, including incurred but not reported liabilities; or

- (b) The Pool has obtained an irrevocable commitment from a licensed insurer that provides for payment of all outstanding liabilities and provision of related services, including claims payment, preparation of reports, and the administration of transactions associated with the period when the Pool or Runoff Pool provided Coverage.

12.4.2 Pool Assets and Liabilities Upon Dissolution. Upon receipt of authorization to dissolve, the Board of Trustees shall distribute the Pool's assets to Participating Members as follows: upon final dissolution of the Pool, all property purchased or owned pursuant to this Agreement shall be sold and the proceeds thereof, together with all other assets not necessary for satisfaction of the Pool's obligations, shall be distributed in accordance with applicable law to the Participating Members. The amount distributed to each Participating Member shall be based on the following two-step formula:

Step 1. 70% of remaining assets will be distributed based on the ratio of (1) the total consecutive Member Months associated with each Participating Member during the final 120 months of coverage provided by the Pool and, if dissolution occurs prior to January 1, 2032, the Pool's predecessor (the Sourcewell Risk Management Pool), divided by (2) the total Member Months for all Participating Members in the Pool during the final 120 months of such coverage. For this purpose, a "Member Month" is one month of coverage for each Employee, Dependent, and Former Employee receiving coverage through the Pool and/or the Sourcewell Risk Management Pool.

Step 2. 30% of remaining assets will be distributed only to Participating Members who have annual premiums in the last 12 months of coverage greater than the Community Rate of the entire Pool. 30% of remaining assets will be distributed based on the ratio of (1) the amount of annual premium paid by the Participating Member in the last 12 months of coverage that exceeds the Community Rate, divided by (2) the total amount of annual premium paid by all Participating Members that exceeds the Community Rate. Community Rate is calculated by determining the average premium amount for each Participating Member needed to fund the Pool's medical claims experience adjusted for health plan benefits, age composition and the geography of each respective Participating Member.
